

# Town of Chazy

Great news! The Town of Chazy has signed up for our community solar farms. As our new Clean Energy Partner, the Town of Chazy will be receiving donations and grants to meet the needs of your community. We are excited for this opportunity to serve your community in multiple ways.

- Saving your community money by providing a guaranteed discount on your NYSEG bill without any costs, fees or contracts.
- Providing clean, renewable energy through NYSEG using our local Solar Farms.
- Helping our communities raise awareness for clean, sustainable energy.
- Raising money for our Clean Energy Partners by donating money to organizations when residential customers enroll in our amazing discount program.

## [Solar Farms New York](#)

New York State passed NY Sun Legislation to meet the energy needs of residents. NY has a goal of 100% clean, renewable energy by the year 2040. New York has a lot of suppliers of energy, but a lot of them are not clean or renewable energy. The goal is to provide low cost energy while reducing our carbon footprint, and have affordable clean energy as an alternative.

## [Enrolling in our amazing discount program is FREE!](#)

This is a wonderful program to join. The discount is applied directly to your NYSEG bill. It takes about 60 days to start receiving the solar credits on your NYSEG bill, but you will get the discount even when the sun isn't shining! You will still have NYSEG, there are not any rate changes as we are not an ESCO. You are not switching from NYSEG. Our Solar Farms are already providing clean energy to NYSEG, why not get the discount?

[Call Laura Garrow your local clean energy representative with your NYSEG account number or POD ID to enroll today! 802-752-9275](#)

It is a very fast process, usually about 3 to 5 minutes to enroll. Solar Farms NY will donate to your town with every enrollment in the Town of Chazy.
